Supplement of

The expression of the SCD1 gene and its correlation with fattening and carcass traits in sheep

K. Ropka-Molik et al.

RNA<sub>con</sub>- concentration of obtained RNA samples showed as ng/µl; the mean RNA concentration across three tissue was 330.46 ± 117.52 (SD).
Table S2. The standard curve parameter, PCR efficiency and the average expression stability M values for all analyzed genes.
